

# **Hunting**

## **Policy Statement of the PFFPOA Board of Directors**

**November, 1 2014**

By both North Carolina State and Transylvania County laws, it is not illegal to hunt or target shoot on our properties. However, it is illegal to discharge a weapon in an unsafe manner such as near a building or near where people are present. Given the size of our lots, the very limited visibility, and the range of hunting and target shooting weapons, we do not consider it possible to hunt or target shoot safely within the confines of our community. Therefore, we strongly discourage property owners from hunting, target shooting, or giving permission to others to hunt or shoot on their properties.
